Json data

```javascript
var books = [
    {
        title: "Lord of the Rings",
        year: 1994,
        pages: 3000
    },
    {
        title: "1984",
        year: 1984,
        pages: 2000
    },
    {
        title: "Art of war",
        year: 2000,

        pages: 5000
    }
]
```
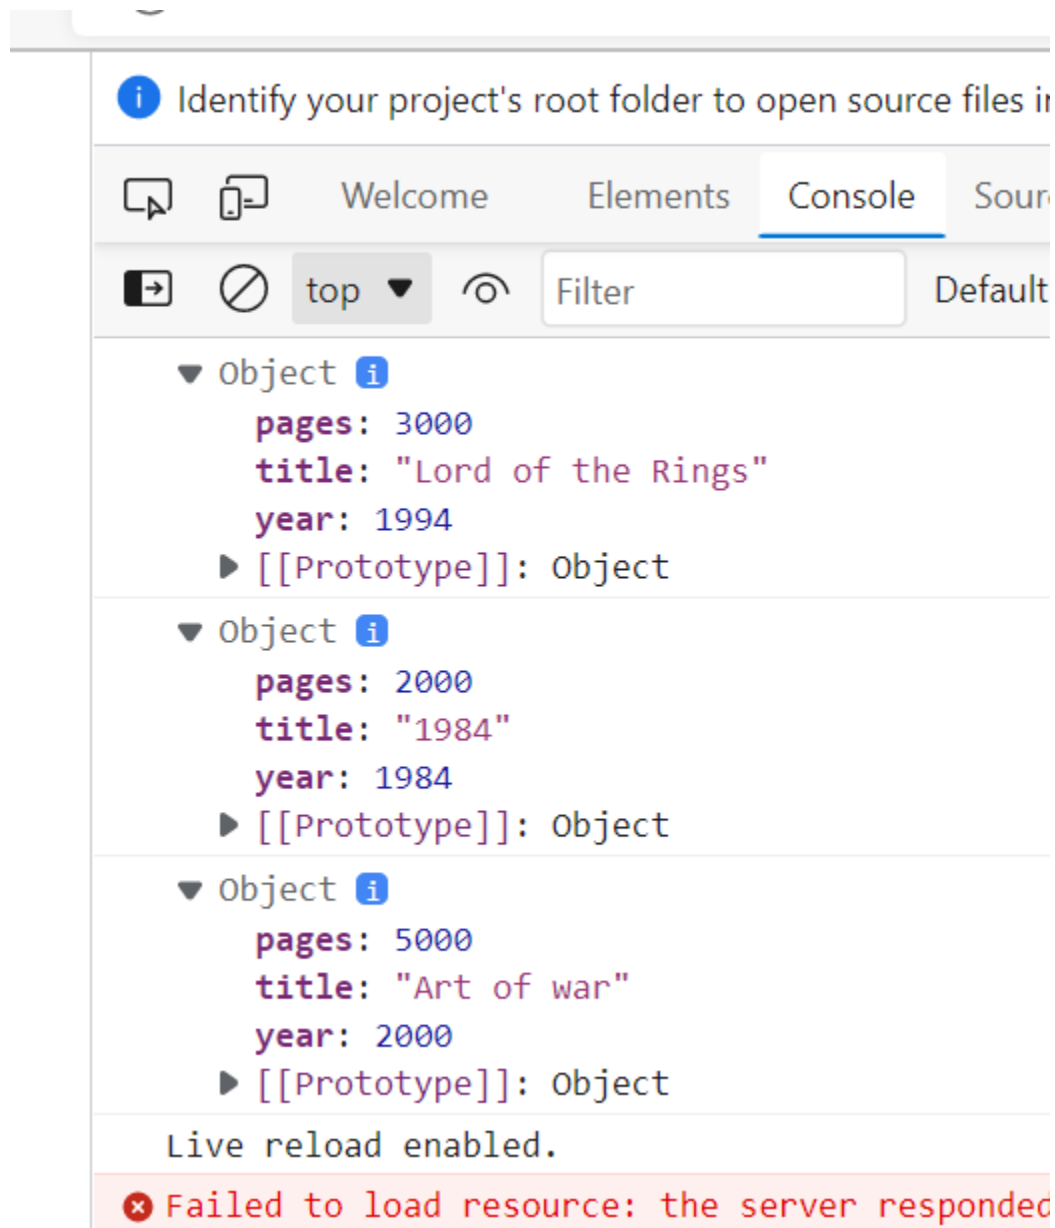

For loop:

```javascript
for (let i=0; i<books.length;i++ )
 {
    console.log(books[i])
 }
```

For in loop:

```javascript
 for (let x in books)
 {
    console.log(books[x])
 }
```
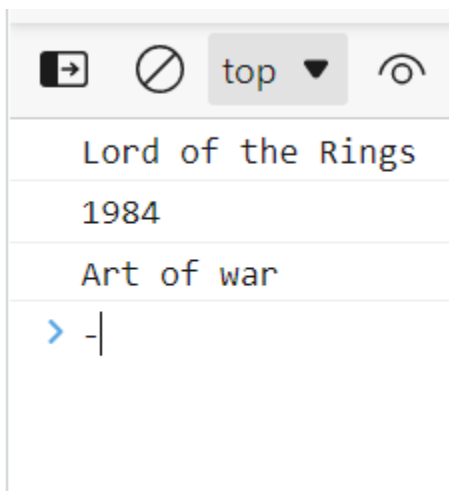

O/p:

For of:

```
for (const obj of books)
 {
    console.log(obj.title)
}
```

O/p:

For each:
```
const entries = Object.entries(books)
 Object.entries(books).forEach(([key, value]) => {
   console.log(`${key}: ${value}`)
 })
```
